Grande Prairie Branch of Canadian Legion Observes Remembrance Day, Banquet

The observance of Remembrance Day by the Grande Prairie Branch of the Canadian Legion took the form of a banquet, which was held in the dining room of the Grande Prairie Hotel on the evening of Monday, November 12, followed by a dance in the Capitol Theatre.

In the absence of President J. B. O'Brien, who was ill, the banquet was presided over by Comrade Norman Leslie, vice-president, of the Grande Prairie Branch.

Before being seated at the banquet table, which carried all the heart of Canada, Dr. O'Brien said grace.

Mayor Tooley, on being introduced, said that he appreciated the honor of being present and saying a few words of welcome. He was glad to meet the returned men and their families.

His Worship then returned to the necessity of building a memorial in Grande Prairie to the memory of the veterans. He explained that the town was the only one in the province.

had set aside a site near the Town Hall for such a memorial. "In this we will be glad to cooperate with the Canadian Legion," he added.

After referring to the hearty cooperation which the Legion gave in the cause of relief, His Worship then went on to say that it was fully content that the veterans did not accomplish anything in the war. "We cannot get away from the fact that if it were not for them we would be Germanized and suffering from a form of Hitlerism instead of being part of the British democracy."

"Continuing, the Mayor observed that the Empire stands, possibly more than any other nation, for peace, and concluded by making a plea for the returned men to be as justly dealt with, and this should be an occasion when we should place ourselves to that task."

"Captain Roberts brought greetings from the Veterans' Legion. He voiced the opinion that if the British Empire had not been so strong, it would have been a long way towards maintaining peace in the world."

Comrade H. E. Dufford observed: "We should not forget why we were over there." He stated that the struggle, so far as the allies were concerned, was to prevent the world from being delivered the knockout blow. Peace under that condition would have been more than the one which resulted."

The dance, held at the restaurant, was very successful. The music was played by the interference of the police.

The press was charged, speaking of the success of the evening's work, with two officers of the Legion, heads to the possibility of war.

Mr. Balfour thought that the British Empire should be so in its regard. He expressed the opinion that one of the best ways to prevent war was to prevent wheat and nickel being shipped to the belligerents.

The musical part of the evening's program was in charge of P. Lockyer. For the first number Mr. Lockyer chose to sing two beautiful songs, "The Soldier's Song" and "The Soldier's Song."

"The Veteran" and for his second "Old-Fashioned Mother of Mine." Mr. Lockyer always has been a favorite of the Grande Prairie audience, was in excellent voice and simply delighted his listeners.

Frank Spicer played popular hits in his solo. He sang "The Soldier's Song" and "The Soldier's Song." He was also in his solo song, "I Was in the Trenches of the Front."

Bert Funnell also presided at the piano. Singing of "God Save the King" brought the banquet to a close.

The dance, held at the Capitol Theatre, under the auspices of the Legion, was well attended. The hall was filled with couples, and the dancing continued until a late hour.

The wonderful banquet was prepared and served by the wives and sweethearts of the returned men.

After all had partaken of the good things spread before them, Captain Roberts, who was in the chair, took charge.

Following the toast to the King, the toast to the Canadian Legion, and two minutes of silence, Mrs. Bunyan of Wembley delighted the audience with two vocal solos, each sung with splendid expression.

Comrade Ron followed with two comic songs and Comrade C. J. Whelan, of Wembley, with a song which he dedicated to his best sister.

Mrs. P. J. Prewer added to her reputation as a singer by her two delightful solos.

The toast "To the Rising Generation" was proposed by Captain Roberts and highly responded to by the audience. Dick, who is a student at the Wembley High School, said that he was proud of the returned men and said that his father was one of them.

During the evening the audience sang several songs popular during the war. Mrs. Bunyan and Mrs. Jean Lewis accompanied the singing.

The singing of the National Anthem brought the most pleasant evening to a close.

Mayordom Makes Appeal to Pay Taxes Now

Your report of the proceedings of the town council to tax delinquents last week was somewhat misleading and created the impression that I was in favor of discounts on current taxes as well as arrears of taxes. The matter of discounts on current taxes was not under discussion.

I did express myself in favor of a discount of 4% on arrears, which would about equal the penalty added as an incentive to pay before a certain date. It was decided that no discount should be given.

I wish to appeal, then, to the taxpayers to pay in as much as possible at once. I am sure that they are in the position to meet school, hospital, and other requirements out of tax collections.

REMEMBRANCE

From every pulpit and every platform in Canada, United States and Britain on November 11 (Remembrance Day) speakers hurried their denunciations against war.

All this is most encouraging to those who have been working for peace and who believe that the only sound method of settling international disputes should forever be relegated to the past and never resurrected.

However, there are several discordant notes being heard. We listen, we can hear being carried across the Atlantic the voice of Mussolini, the dictator of Italy, has ordered that all boys when they reach the age of eight, must be sent to military training. In Germany, Hitler has set the age for military training at ten years. Japan is sending her young men to war with China without saying so. Russia and all the other nations of Europe are armed to the teeth.

Thoughtful people are asking the question: why are these nations preparing for war? What is this leading up to?

We ask, does this mean that the best way to prevent war is to be prepared on both land and sea?

For years before hostilities broke out in the Great War practically all nations were prepared and they hurried their might machines of destruction and death at the opposing armies.

The vast preparations did not prevent the titanic struggle. They were the cause of it.

The Tribune sees it, the only way to insure peace is to scrap armaments. Of course some nations would have to be mutual. No nation can afford to place itself in a position that it cannot defend itself while its neighbor is increasing its armaments.

The time to prevent war is before it starts. Once the armies begin to move, it is then too late.

There is a hopeful sign. Notwithstanding the preparations going on in Germany and Asia, the people of the world are opposed to war more than ever before.

We must think this deniable war is the only solution. That is the only solution.

TIME ROLLS ON

I read that the majority of the nations are increasing their armaments, and at the same time talking peace, which reminds me of two men I once knew posing as peace-makers and at the same time carrying a "billy" on their hip. Strange world this.

"Time rolls on." I read that Sir Charles Kingsford-Smith made the trip from Brisbane, Australia to Oakland, California, in 51 hours and 40 minutes actual flying time, averaging 141 miles an hour.

"Time rolls on." I read that a flying machine made its appearance the time the Israelites made their getaway from Egypt. On the front page of the paper, it was said that we have been necessary for them to wander forty years in the desert before reaching the promised land, as a few birds would have landed them in a short while in the land flowing with milk and honey.

"Time rolls on." I read that a snake wriggled out of its bag and up the stairs, which was seen from the place. The snake has been secured by many things, from counting out the money in the Garden of Eden to stinging people, but this is the first time it has ever been heard of any member of the tribe being secured by being a fire-bug.

"Time rolls on." I read that a man in Alberta who attempted suicide by hanging himself and left on suspended sentence. Evidently there are some things we cannot dispose of, and though we have clear title to them, and shuffling off by some force, method is one of them.

"Time rolls on." I read that Joe Clarke, who once ran in still water is finding the water in the Edmonton university is not quite so still. However, Joe is rather quiet of round water. He cannot see the job of floating on the water. Joe is the stormy petrel of Edmonton politics.

"Time rolls on." I read that Banquo Irons, charged with a huge mail fraud, admitted he made a mistake of \$100,000,000 in a few minutes.

statement to the stockholders—avoided a mere trifling loss—avoided that, indeed, who was one of the kings of finance in the United States, could get away to go his bail. The gang which he no doubt had been in the United States, and the captain of the ship got in difficulty. It is but a repetition of the old, old story. When a man is on top he has plenty of friends, but when he is down he has many few exceptions, he is bereft of friends.

"Time rolls on." I read that Labor in Britain relied upon huge gains in the recent municipal elections, as the municipalities usually indicate the trend which will take place in the future, it is possible that Labor will again find itself occupying the middle following the next national election.

"Time rolls on." I read that many of the poultry raisers in the Edmonton district are placing their products under a central selling agency under the National Poultry Marketing Act. The government has been from time to time appealing to for some sort of reform in the poultry business, but some have been taken to relieve the market level, and up against the Marketing Act. It's a tough old world for governments.

"Time rolls on." I read that Paris has experienced another riot. Paris is not a city that should be no more Paris than London would be London without the old fog.

"Time rolls on." I read that the farmers of the Mundare district have gone on strike over the refusal of the grain elevator to market. Evidently the farmers in this district who were satisfied with a grain elevator, are now not so satisfied. And pertinent questions in presenting a case to the courts. It is not a district even get started from the starting line. Time was when strikes were not a thing to be feared, but now it is a common thing to hear of strikes in the most stable of nations.

"Time rolls on." I have heard farmers' loud in their condemnation of union men in their condemnation of union men who went on strike. Things have changed, the last couple of years.

"Time rolls on." I read that the mother of the famous quack, who died in a great hubbub in Edmonton over handbook makers, is now in a great hubbub. It is strange how people get at times so over certain forms of gambling and betting, and how they get so over the face of gambling on a table, and how they get so over just another proof of what the Indian said: "White man very uncertain."

"Time rolls on." I read that a man in Virginia who was losing all evening dropped dead. He had held four or five times what would have happened if he had not held four or five times.

"Time rolls on." I read that a man in Montreal, pioneer railway builder, died recently at Toronto at the age of 81. One by one the great men of the world are going down before the grim reaper.

"Time rolls on." I read that a Silverwood (Peace River) farmer recently shipped a carload of sheep to Edmonton. The sheep weighed 21,000 pounds. For the sheep, it was a record.

"Not where he is but what he does" is the motto of the sanatorium. It is not a place where one can get away from the world, but a place where one can get away from the world.

REMEMBRANCE

From every pulpit and every platform in Canada, United States and Britain on November 11 (Remembrance Day) speakers hurried their denunciations against war.

All this is most encouraging to those who have been working for peace and who believe that the only sound method of settling international disputes should forever be relegated to the past and never resurrected.

However, there are several discordant notes being heard. We listen, we can hear being carried across the Atlantic the voice of Mussolini, the dictator of Italy, has ordered that all boys when they reach the age of eight, must be sent to military training. In Germany, Hitler has set the age for military training at ten years. Japan is sending her young men to war with China without saying so. Russia and all the other nations of Europe are armed to the teeth.

Thoughtful people are asking the question: why are these nations preparing for war? What is this leading up to?

We ask, does this mean that the best way to prevent war is to be prepared on both land and sea?

For years before hostilities broke out in the Great War practically all nations were prepared and they hurried their might machines of destruction and death at the opposing armies.

The vast preparations did not prevent the titanic struggle. They were the cause of it.

The Tribune sees it, the only way to insure peace is to scrap armaments. Of course some nations would have to be mutual. No nation can afford to place itself in a position that it cannot defend itself while its neighbor is increasing its armaments.

The time to prevent war is before it starts. Once the armies begin to move, it is then too late.

There is a hopeful sign. Notwithstanding the preparations going on in Germany and Asia, the people of the world are opposed to war more than ever before.

We must think this deniable war is the only solution. That is the only solution.

TIME ROLLS ON

I read that the majority of the nations are increasing their armaments, and at the same time talking peace, which reminds me of two men I once knew posing as peace-makers and at the same time carrying a "billy" on their hip. Strange world this.

"Time rolls on." I read that Sir Charles Kingsford-Smith made the trip from Brisbane, Australia to Oakland, California, in 51 hours and 40 minutes actual flying time, averaging 141 miles an hour.

"Time rolls on." I read that a flying machine made its appearance the time the Israelites made their getaway from Egypt. On the front page of the paper, it was said that we have been necessary for them to wander forty years in the desert before reaching the promised land, as a few birds would have landed them in a short while in the land flowing with milk and honey.

"Time rolls on." I read that a snake wriggled out of its bag and up the stairs, which was seen from the place. The snake has been secured by many things, from counting out the money in the Garden of Eden to stinging people, but this is the first time it has ever been heard of any member of the tribe being secured by being a fire-bug.

"Time rolls on." I read that a man in Alberta who attempted suicide by hanging himself and left on suspended sentence. Evidently there are some things we cannot dispose of, and though we have clear title to them, and shuffling off by some force, method is one of them.

"Time rolls on." I read that Joe Clarke, who once ran in still water is finding the water in the Edmonton university is not quite so still. However, Joe is rather quiet of round water. He cannot see the job of floating on the water. Joe is the stormy petrel of Edmonton politics.

"Time rolls on." I read that Banquo Irons, charged with a huge mail fraud, admitted he made a mistake of \$100,000,000 in a few minutes.

"Time rolls on." I read that a man in Virginia who was losing all evening dropped dead. He had held four or five times what would have happened if he had not held four or five times.

"Time rolls on." I read that a man in Montreal, pioneer railway builder, died recently at Toronto at the age of 81. One by one the great men of the world are going down before the grim reaper.

Remembrance Day Fittingly Observed East of Smoky

(Special News Letter to The Tribune)
EAST OF THE SMOKY, Nov. 12.—The East of the Smoky Branch of the Canadian Legion was more than for-
tunate in having the Rev. Max Baxter as its special preacher for their Remembrance Day service on Sunday, November 11, at 1:30 a.m., in the Community Hall, Delta. Mr. Baxter was met at Moody's Crossing by Mr. Lionel Norbury and conveyed to the home of his father and mother, where he was made welcome and spent the night. On Sunday morning Mr. Bob Norbury drove him to church.

Order of Service
Hymn—"Jesus Shall Reign."
Memorial Prayer, ending with Lord's Prayer, all joining.
Last Post (all standing), by Henry Grayson, Delta.
Two-Minute Silence.
Neville (all standing), Henry Grayson, Delta.
Hymn—"O God Our Help in Ages Past."
Benediction.

It was a most beautiful service the members of East of the Smoky Branch and their friends had the pleasure of listening to and the sermon was based on the words of the Apostle Paul, as found in II Timothy 4:7: "I have fought a good fight, I have finished my course, I have kept the faith."
Mr. Baxter showed how Paul had to fight in the great army of Christ and how he finished his course, and he had the assurance that he was a crown of righteousness which the Lord the righteous Judge shall give me at that day.

Mr. Baxter thought it was only right and proper that we should come together and give thanks for all our blessings received, remembering that we had much to be thankful for and should especially remember the noble men and women who heard the call and did not count their lives dear when they went to the front and laid down their young lives in a noble cause, that like St. Paul, they could say: "We have fought the good fight and finished our course, we have the victor's laurel wreath and the torch to carry it through."

The musical part of the service was in charge of Mr. Henry Grayson Dodd and his son, Stanley, and Dr. Neilson. Mr. Dodd is visiting his home at present and we appreciate the service which he rendered on this occasion. Mr. Dodd was born of 151-74 Regina Road and organist of St. Peter's Church.

We are looking forward to hear more of Mr. Dodd's singing, and we hope he and Mrs. Dodd will enjoy their stay amongst us.
Mr. Bob Norbury was sick and under the doctor's care, but he was able to

attend the service. We hope he will be feeling much better in a little while.
Jackie Grant was a welcome visitor at the service. Jackie and his mother have just returned from a two years holiday in dear Old Blighty and we welcome them home.

Rev. Mr. Baxter accepted the kind invitation of Mr. and Mrs. Ridd to visit with him and have Sunday dinner. We will be glad to have Mr. Baxter come out east again and hold some of his services. The Legion thanks him very much for coming out and taking the service.

Robert Allingham Given was on hand with the poppies and we thank him for his contribution. If we could get everyone to do this the Legion suggests, we have a very good chance of making a very successful campaign.

MUST SELL BUTTER BY NET WEIGHT

Recently inspectors of the Dairy and Cold Storage Branch of the Dominion Inspectors in Vancouver have been making a closer check up of the weights of prints of butter in order to protect the consumer from receiving full weight. This has disclosed the fact that many of the prints of butter are not being sold by net weight.

These regulations provide in substance that all butter sold by net weight must be sold by net weight.

The inspectors will continue the check-up throughout Canada in order to see that consumers receive full weight.

THE AGRICULTURAL SITUATION

The Agricultural Situation will again be the subject of a special report to the Dominion Inspectors in Vancouver, which will be made available to the public.

Fourteen committees, the members of which are officers of the Dominion Departments of Agriculture, and of the various provinces, are preparing the report. This year a greater effort will be made to secure more complete details on conditions in export markets and the nature of the competition which may be expected from other countries.

The committees will submit the conclusions from the information they obtain at a conference to be held at the end of November, at which it is expected representatives of the different provinces will be present. The work this year, as last, is being carried on under the direction of a committee appointed by the National Advisory Committee on Agricultural Services.

COUNCIL OF WINNIPEG GRAIN EXCHANGE MAKES STATEMENT

The following statement, issued by the Council of the Winnipeg Grain Exchange, was distributed recently by the Canadian Press:

"On October 1, Winnipeg newspapers carried a report that the Winnipeg Grain Exchange had been closed by the government of Manitoba, which is in charge of the export of grain from the province."

It was stated that he would recommend to the government at Ottawa that an investigation be made into the selling of wheat on the Winnipeg Exchange, and that they take immediate action in regard to the future market in Canada.

About October 6 a malicious dispatch, purporting to be the inside story of an organized effort to close the Winnipeg grain market during the two previous weeks appeared in many of the leading newspapers throughout Canada. This dispatch originated apparently from the Winnipeg Grain Exchange, and it was stated that the Winnipeg Grain Exchange had been closed by the government of Manitoba, which is in charge of the export of grain from the province."

Although the Red Army air fleet is famous, the U.S.S.R.'s civil aircraft system compares favorably with the best in the world. Passenger, mail and freight sky routes now crisscross vast areas of Russia and aviation schools are springing up by the score. Planes are bringing civilization to remote corners of the nation and are being used in farming, seeds often being planted from the air.
